BRITISH-POLISH TECH FORUM

LONDON

Wed, 7 December 2022

09:00 – 15:00 GMT

Queen Elizabeth II Centre
Westminster

Exploring opportunities from British-Polish tech partnerships

 **GoTechPoland**

The fourth British-Polish Tech Forum draws on the experience from previous editions of this successful event.

This annual conference aims to explore new opportunities in the context of British-Polish partnerships: from setting up tech hubs in Poland, outsourcing, remote working, R&D and optimising cross-border tech sales to securing international venture capital.

Aimed at CIOs and CTOs from across all sectors of industry and commerce in both countries, the event will offer fresh insight into the forces shaping the tech markets in Poland and the United Kingdom. There is also a practical focus on networking, ensuring that new high-level contacts can be made, opening the doors to exciting possibilities, including opportunities to develop commercial partnerships between the British and Polish tech companies.

Discussion panels | Networking lunch | Tech exhibitions
